Agenda

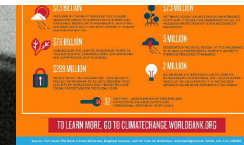

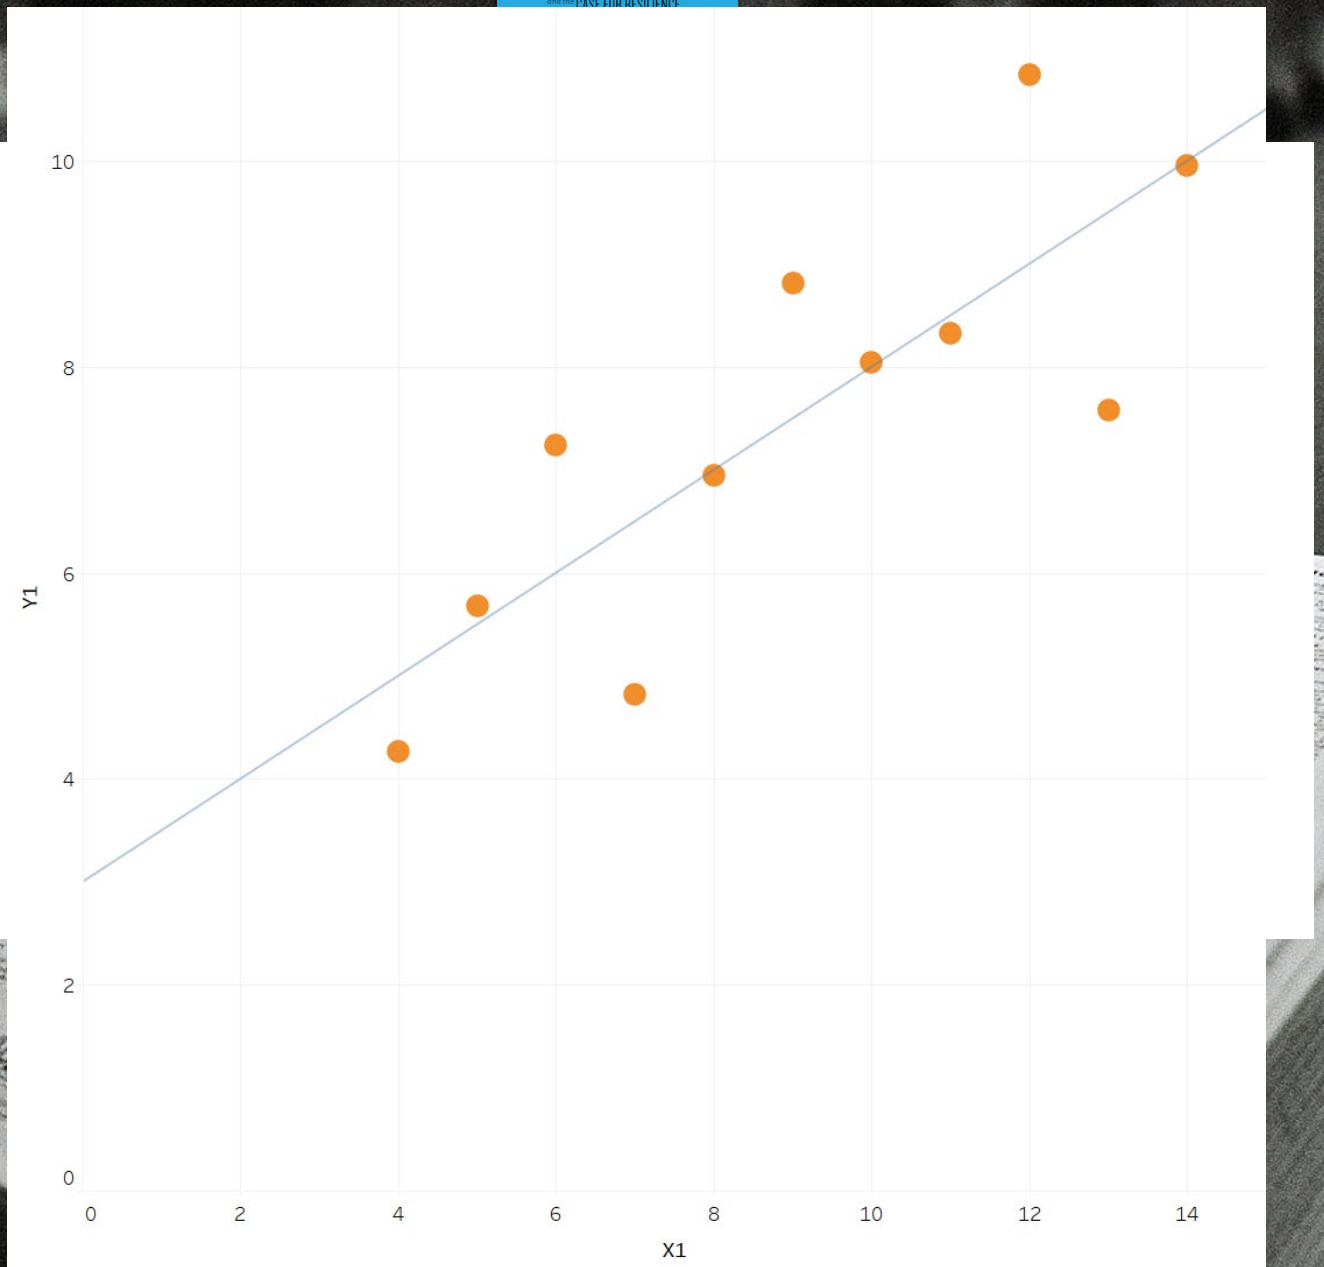

- Learning Objectives
- Introduction to Infographics
- Design Process – Best Practices
- *Activity: Critique*
- Break
- Tools
- *Activity: Creating an Infographic*
- Wrap-up

Learning objectives

- Participants will be able to:
 - ✓ Describe what infographics are
 - ✓ List examples of how infographics are used
 - ✓ Identify best practices for creating infographics
 - ✓ Critique infographics, using knowledge of best practices
 - ✓ Identify appropriate infographic creation tools
 - ✓ Use Piktochart to create infographics following best practices
 - ✓ Be aware of Map & Data Library services and where to go for more help

Definitions Infographics?

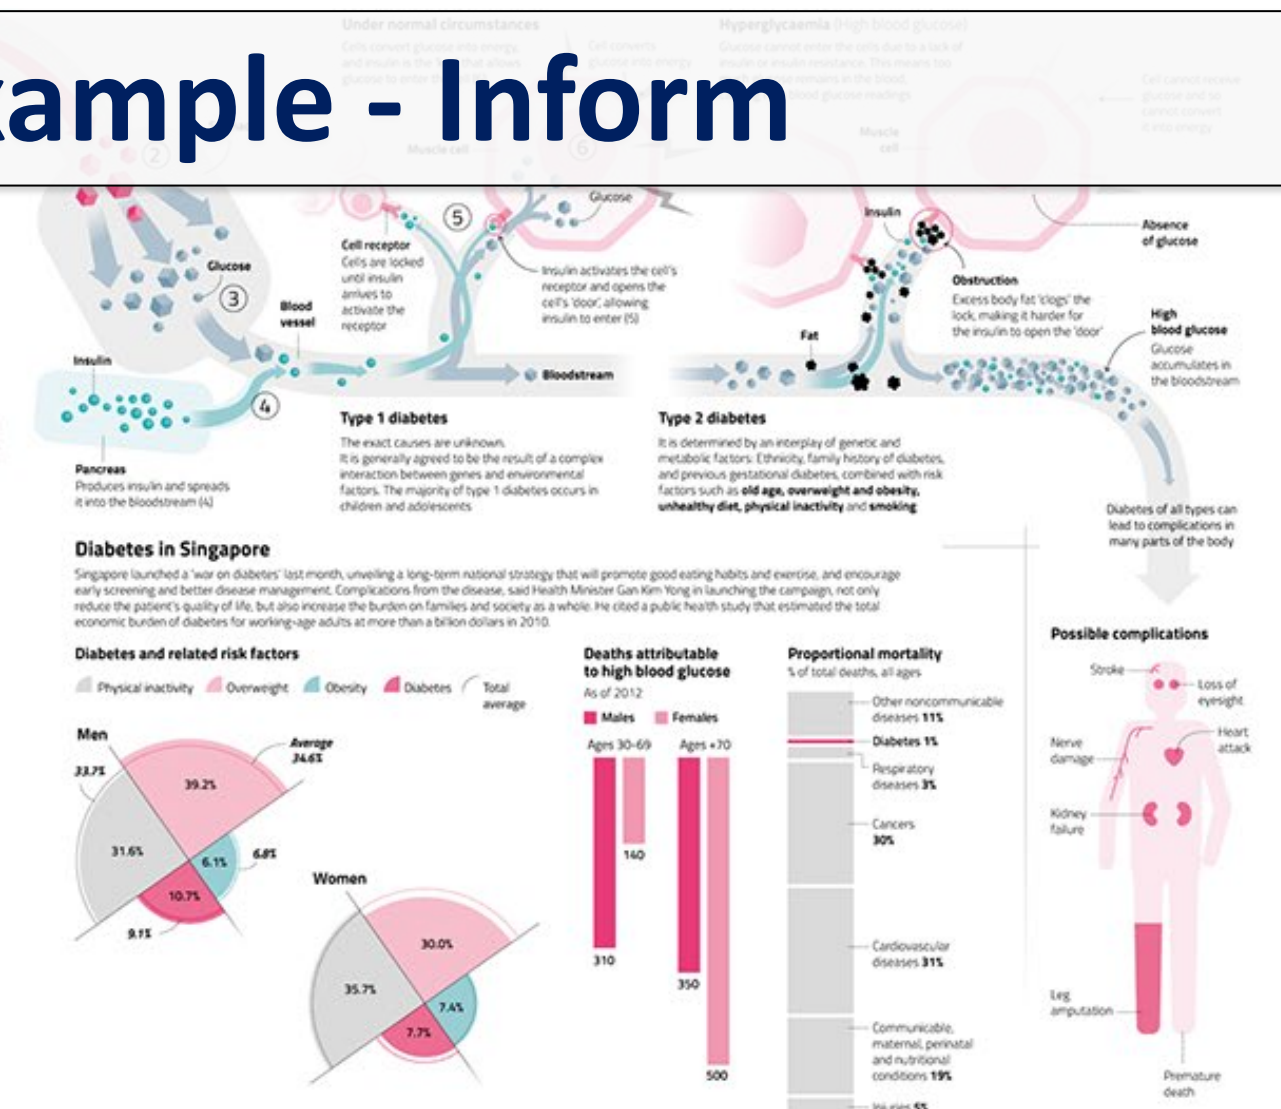

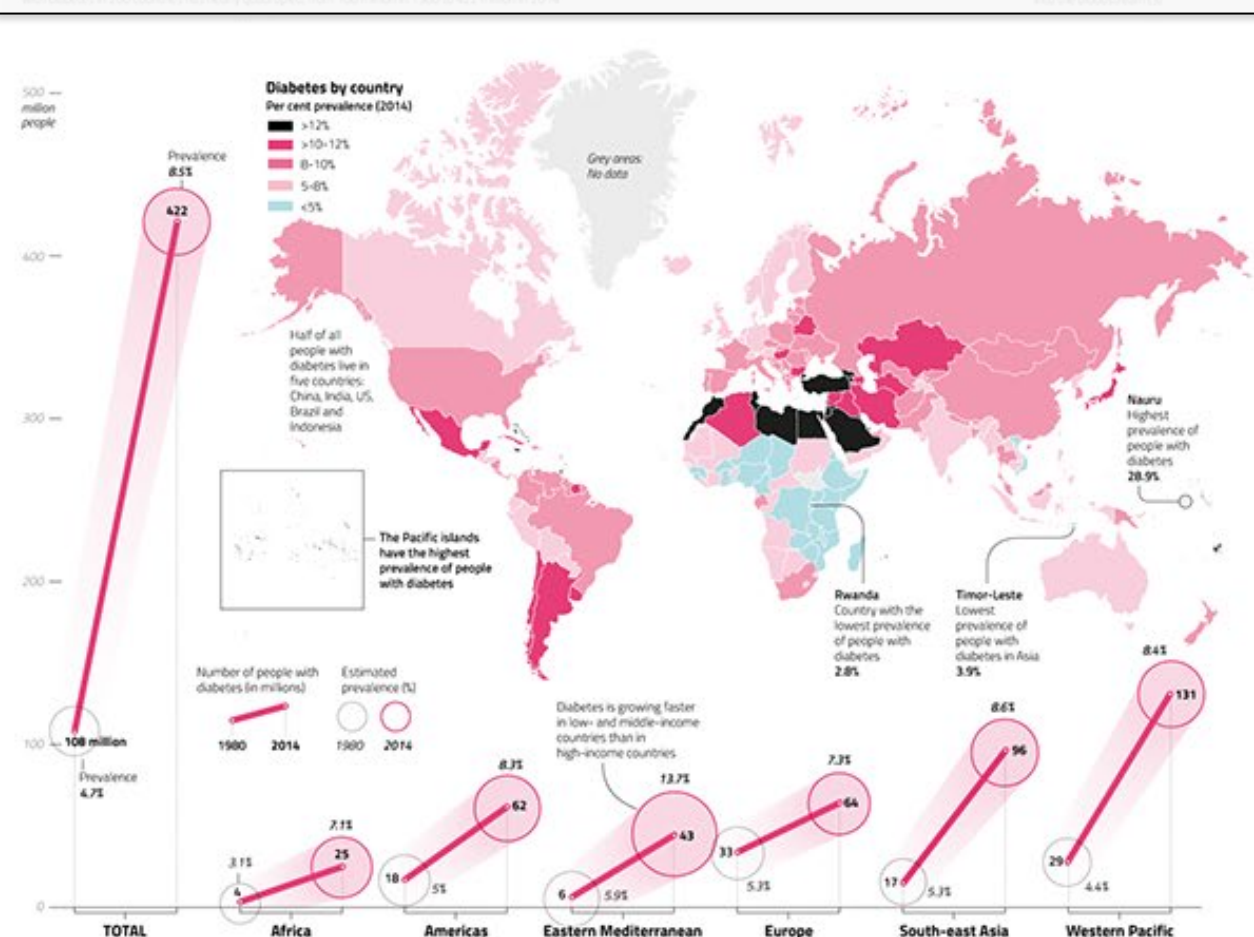

Diabetes: The silent scourge

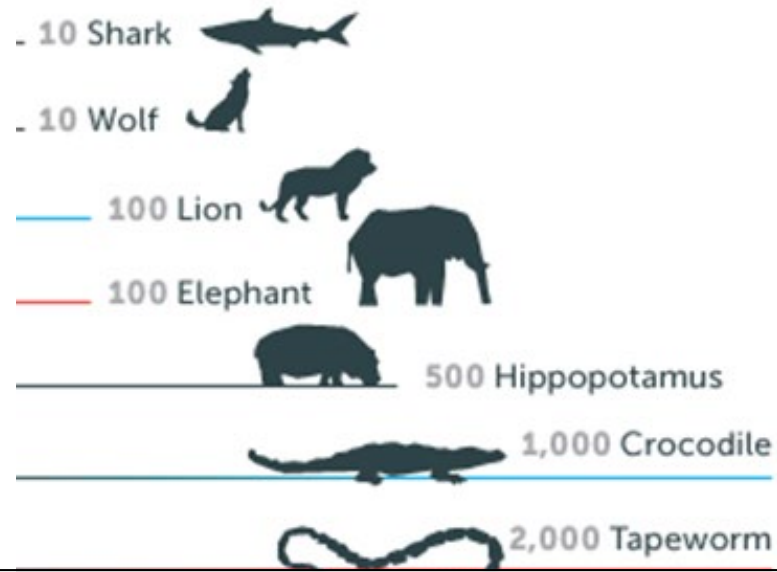

An estimated 422 million adults globally were living with diabetes in 2014, compared with 108 million in 1980. The global prevalence (age-standardised) of diabetes has nearly doubled since 1980, rising from 4.7 per cent to 8.5 per cent in the adult population. This reflects an increase in associated risk factors such as being overweight or obese. Over the past decade, diabetes prevalence has risen faster in low- and middle-income countries than in high-income countries.

Diabetes worldwide

Pooled data from 751 studies involving 4.4 million adults, researchers estimated that the number of adults with diabetes in 200 countries has nearly quadrupled, from 108 million in 1980 to 422 million in 2014.

Why visualize?

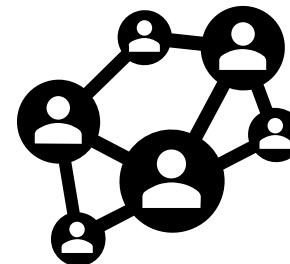

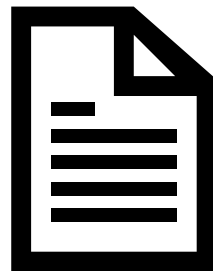

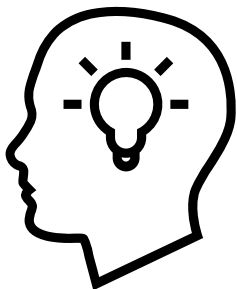

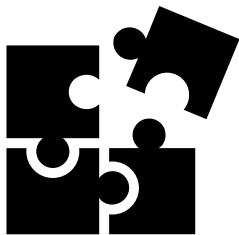

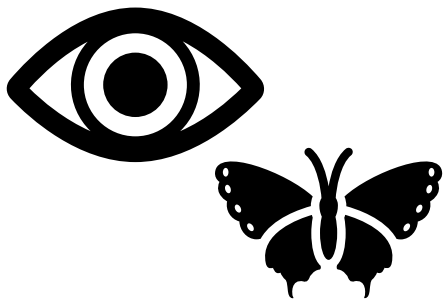

Dual Coding Theory

A photograph of three people sitting around a campfire at night. The scene is dimly lit, with the primary light source being the bright orange and yellow flames of the fire in the foreground. The people are wearing warm clothing, including hats and jackets. The person on the right is looking towards the camera, while the others are looking slightly away. The background is dark, suggesting a nighttime outdoor setting.

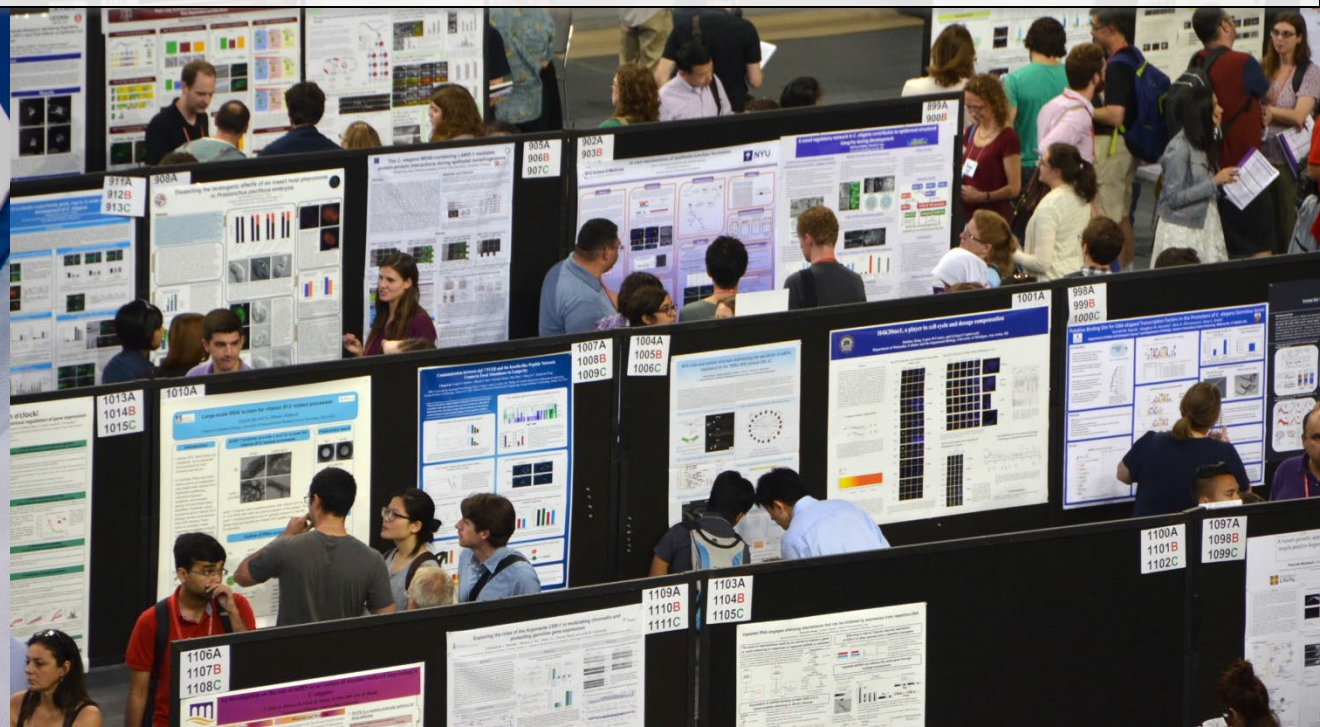

Storytelling

Infographics

How are Infographics used?

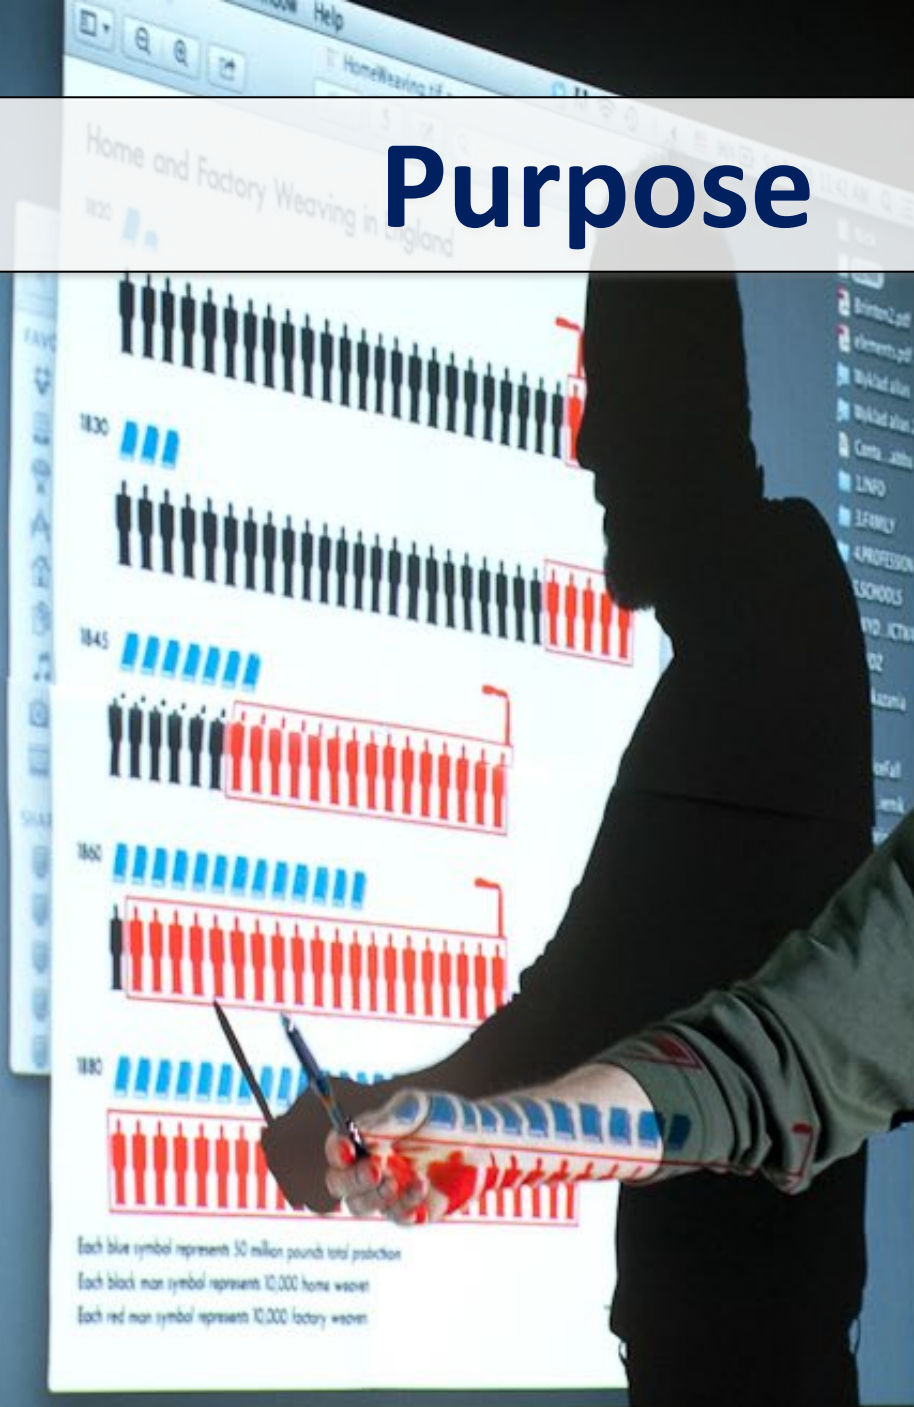

A woman with brown hair tied back, wearing glasses and a red scarf, is seated at a light-colored wooden desk. She is looking at a large computer monitor that displays a design interface with a logo and company name. On the desk, there is a tablet with a color calibration chart, a color calibration chart, and some orange sticky notes. A small potted plant is visible on the left side of the desk. The background is a plain white wall.

Design Process - Best Practices

Audience

Purpose

Context

VOLUNTEER CHILD ADVOCATES CHANGE LIVES

"Being in foster care is living in a constant state of flux. Homes, schools, families...everything is always changing, often suddenly and without warning. The only constant was my GAL volunteer. Without her I would have been lost in the system." **MELISSA, FORMER FOSTER YOUTH**

THE PROBLEM: OVERWHELMED SYSTEMS

The average child will spend nearly 2 years (20 months) in foster care.

On average each one of those children will change homes three times.

GUARDIAN AD LITEM VOLUNTEERS

Volunteers who help abused and neglected children find safe, permanent homes.

- 1 Best Interest Attorney
- 2 Child Advocacy Managers

support 76 volunteers

serving 150 dependent children

THE RESULTS: BRIGHTER FUTURES

One year of volunteer advocacy costs less than one month of foster care.

GAL PROGRAMS CHANGE LIVES

A child with a GAL volunteer is more likely to find a safe, permanent home.

A child with a volunteer GAL is half as likely to re-enter the foster-care system

And, they are more likely to succeed in school and less likely to spend three or more years in care.

FLORIDA GAL PROGRAM VISION: SERVING EVERY

10,060 volunteers help change children's lives every day.

25,000 abused and neglected children have advocate speak for their best interests in the legal system

6,700 are waiting for empowered, loving, permanent home.

"The Florida Guardian ad Litem Program stands as a shining example of what heart-ful, among us can accomplish. Children who have been abused, abandoned and neglected needs and can help them find a safe and permanent home." **JUDGE KELLY J. MCKIBBIN**

The Florida Guardian ad Litem Program is a member of The National CASA Association, among us can accomplish. Children who have been abused, abandoned and neglected needs and can help them find a safe and permanent home." **JUDGE KELLY J. MCKIBBIN**

GUARDIANADLITEM.ORG

Change The Story for a Local Abused and Neglected Child... Become a Guardian ad Litem.

The Child's Best Interest is Our Only Interest.

Guardian ad Litem volunteers are community members who volunteer to represent children before the court, social service agencies and the community. They are the child's voice and the most dedicated advocates for the child's best interests. Volunteers are trained and work in a team environment with program staff including attorneys. On average, Guardians devote 8-12 hours a month to their cases.

- Information Gatherer
- Courtroom Advocate
- Community Advocate
- Mentor
- A Voice for the Child.

If you have a heart for to help a child, an. Guardian ad Litem advocates are a criminal background screening and community.

The training consists of a combination of classroom and fieldwork activities. Volunteers will be an advocate and a voice for the child.

If interested or more information, please contact:

A Brief History Of Lorem Ipsum
By: John Smith

What is Lorem Ipsum?

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Why do we use it?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use

Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

Where does it come from?

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet," comes from a line in section 1.10.32.

Where Should You Buy Your Home?

Vancouver vs Toronto

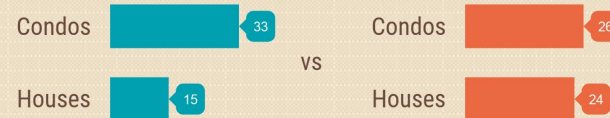

Vancouver, BC
Population: 631,486

Toronto, ON
Population: 2,731,571

Which Do You Prefer: Condos or Houses?

Vancouverites live in a higher percentage of condos vs houses, while Torontonians live in a more even mix.

How Much Do You Want to Pay?

For median estimated value of homes, Vancouver and Toronto vary considerably!

\$1,102,843 vs **\$601,922**

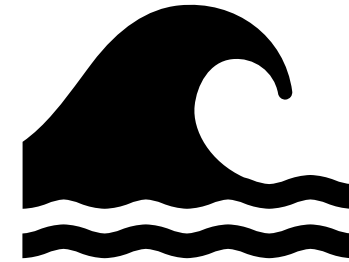

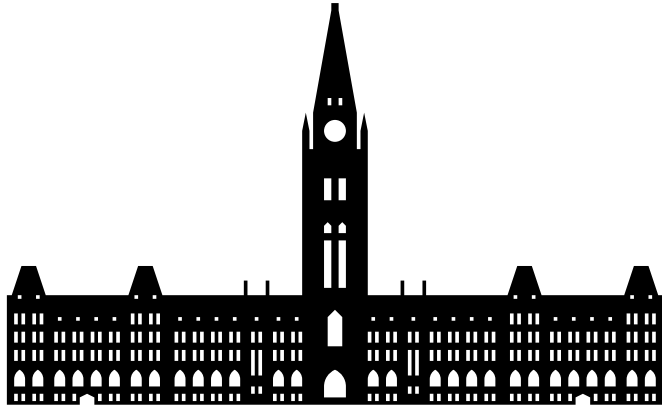

Remember, moving is a big decision and a home is more than a house or condo. Learn more about these great cities: <https://vancouver.ca> & <https://www.toronto.ca>
