

Thank you for your interest in the Working with Messy Data in OpenRefine workshop next Thursday, October 28, 11am-12pm.

For the workshop, if you want to follow along, please install OpenRefine **ahead of time** and download the sample dataset. I've also included a link to the slides.

- OpenRefine Installation Instructions: <https://mdl.library.utoronto.ca/technology/tutorials/openrefine-installation-instructions>
- Sample Dataset: <https://bit.ly/3G39XWM>
- Slides: <https://bit.ly/3n1EGL6>

Let me know if you have any questions or issues with the setup. Look forward to seeing you all at the session!

Thanks,  
Kelly Schultz
